ACTION ON TAX BILL DELAYED BY TRUMAN

Council Acts
To Get City
Hall Site

City council's intentions of appropriating three properties at the southwest corner of E. Pershing st. and S. Broadway for the new city hall site became official Tuesday night with the passage of a "resolution of intention" and instructions for an appropriation ordinance to be drawn up for passage at a later meeting.

The action is the next in the process of securing the new city hall site, which property owners to

date have refused to sell to the city. Court action will be the final step in the procedure.

The three properties included a 60-foot frontage on S. Broadway, owned by Mrs. Frank Webber, an adjoining 37½ feet frontage owned by Norman Paxson and a similar tract owned by Dr. Robert McKelvey. All extend west to Filbert st. Offers of \$16,000, \$8,000 and \$14,000 respectively, have been rejected by the owners.

Read Ordinance June 17

City Solicitor Henry L. Reese was instructed to prepare the ordinance for adoption. First reading will be given at the June 17 session.

Council indicated that negotiations with the property owners can continue until a court decision, but such action is improbable.

Council last night also:

(1) HEARD Safety Director C. E. Phillips' report on the first month of operation of the parking meters, which he termed "highly satisfactory."

(2) RECEIVED Finance Committee Chairman Harry Vincent's report that funds are available for the purchase of an additional cruiser for the police department and awaited the recommendation of the safety committee before acting.

(3) INSTRUCTED Solicitor Reese to draw up an ordinance vacating an alley between the Lyle Printing Co. and Town Hall Diner properties on E. State st.

(4) REFERRED petitions asking a sanitary sewer extension on W. Ninth st., between S. Ellsworth ave. and Jennings ave., to the sewer committee for investigation.

(5) ACCEPTED a report from the water committee okaying a water line on Maple st., between Fair and Adams ave., and requested proper legislation for installation.

(6) APPROVED a second recommendation by the water committee for the extension, at full cost to property owners, of a one and a half inch water line north on Highland ave., 600 feet beyond the city limits.

(7) SENT to the planning commission a petition requesting vacation of an alley west of N. Howard ave., midway between Ninth and Tenth sts., for its recommendation.

(8) REQUESTED estimates from the city engineer for the paving of Fair ave., which is being sought by property owners.

Cruiser Action Delayed

Action on the new police cruiser will be deferred. Councilman Arch Wentz told the council, until the safety committee can consider the matter and report to council. Safety Director Phillips already had asked for the cruiser and Vincent's report from finance committee indicated that approval would be forthcoming.

The action on the Lyle-Diner alley off E. State st. brings to a climax a long consideration by council of whether or not the alley should be vacated.

It has been contended that it should be closed to vehicular traffic, but kept open with a five-foot walk through so that fire hose could be laid in case of an emergency in that business area.

Solicitor Reese opined that such action was impossible because it restricted access to abutting properties by the owners, an act, he said, forbidden by state law.

After considerable discussion, in which the streets committee recommendation, Councilman Carl Abe and Harry Vincent, other members of the committee, asked council to have an ordinance of vacation drawn.

With Wentz and Councilman Ned Massa dissenting, the measure passed four to two. Fred Blevins was absent on account of illness.

Use Air Raid Siren
For Fire Alarms

If you hear a loud siren one of these days, don't become alarmed.

Salem's regular fire alarm, operated by steam at the waterworks pumping station on W. State st., is no longer workable and consequently the fire department is planning to put the civilian defense air raid siren at city hall into use as a fire alarm.

The air raid siren, used during the war for practice air raids, is considerably louder than the old alarm and is more centrally located.

So don't get excited if you hear it.

SUGAR RATIONING
END IS POSSIBLE

(By Associated Press)

WASHINGTON, June 4.—Secretary of Agriculture Anderson told senators today that "we are getting very close to the point where household rationing of sugar might be abandoned."

At the same hearing before a senate banking subcommittee, Walter S. Mack, Jr., president of the Pepsi-Cola Co., contended that the agriculture department, in setting forward the dates of sugar rationing stamps, is "trying to dump sugar on the housewife in large quantities," thus reducing stocks and making it appear that rationing remains necessary.

Mack advocated immediate decontrol of sugar. The committee is considering a bill by Senator McCarthy (R-Wis.) and others which would do that. Under present law, the controls may stay on until next Oct. 31.

Anderson said an unexpectedly large Cuban sugar crop furnishes a stabbed hope that additional sugar will be available to American housewives, over and above the present provision for 35 pounds a person. The question is how to allocate it, if it becomes available.

The secretary has the power to remove controls before Oct. 31 in his discretion. He told the committee there are "some attractive arguments" in favor of lifting controls on household sugar, as well as some disadvantages. "I think it is a pretty close question," he said.

Elephant Caught

BY MONDAY WASH

LANSING, Mich., June 4.—Burma, performing elephant at the Mills booth, circus, is back in favor again despite yesterday's attempt to flee the gaudy attractions of a tent show for the simpler suburban life. "Burma is a real trouper," said trainer Ray Goode proudly after the circus' one and only elephant performed as usual last night.

"She was so nervous yesterday we had to feed her bread and sugar for half an hour to bring her under control. All those women yelling and screaming. It upset her so we thought she couldn't go on."

Unlike Burma, some of the good housewives of suburban South Lansing still were a little jittery today.

The elephant broke her chains and went on a tour of the neighborhood, smashing across lawns, knocking down fences, trampling gardens and peering through windows of the neat little homes in the section.

When finally caught Burma was entangled in a welter of backyard washing.

President To Get
Lavish New Plane

SANTA MONICA, Calif., June 4.—A new "Flying White House" was about ready for test flights today.

The four-engine presidential transport plane, replacing the "Sacred Cow" which has traveled 430,000 miles during the administrations of President Truman and the late President Roosevelt, is a luxuriously fitted ship capable of cruising at 315 miles an hour, with a top of 358.

It was named "The Independence," for President Truman's residence city, Independence, Mo.

"The Independence" will be flown later this month, with delivery scheduled for about July 1. The cost was \$550,000 to \$700,000. The chief executive's compartment, decorated in chocolate brown, dark blue and light grey, has a swivel and reclining chair, conference table, desk, a double seat facing instruments recording the plane's speed, altitude and compass course, telephone handset, radio, filing cabinet, wardrobe and a private dressing room and lounge.

500 Homeless,
4 Missing As
Dam Bursts

(By Associated Press)

RUTLAND, Vt., with at least four persons missing—three of them children—was virtually isolated today in the wake of a roaring flood that caused damage estimated at more than \$200,000 and left upwards of 500 persons homeless, and electricity.

The city was without water, gas and electricity.

National Guardsmen patrolled the inundated congested residential area and emergency kitchens were set up to feed the homeless.

Business was virtually at a stand-

still as everyone pitched in to clear debris and help homeless.

While no casualties have been officially reported, police listed four persons as missing:

Mrs. Bernard Cohen and one of her children.

Philip McKenzie, 9.

Richard Lavietorre, about 10.

Floods also were reported in Ohio, Pennsylvania and New York.

A bursting dam north of Rutland sent a nine-foot wall of water pouring across sections of the city last night. An estimated 500 families left their homes; some heeded advance warnings and others were taken out by boat and canoe. The city of 18,000 was left without drinking water or electric service today.

Unconfirmed reports reached Rutland that Proctor, a community west of there, also was badly hit. All communications were out.

The Red Cross set up a relief headquarters in a Rutland armory.

Second Dam Bursts

Another dam burst 18 miles up the Moose river from Lyons Falls, N. Y., wrecking a bridge spanning the main highway into the Adirondacks and flooding farmlands, but the village itself escaped major damage.

In Oneida, N. Y., Oneida creek receded after spreading over a six-block area and flooding 300 homes. A fourth of Elmira, N. Y., was flooded by Chemung river tributaries, which quickly receded. Rising Six-Mile creek caused the evacuation of 35 Ithaca families.

High water took out bridges at Noblesburg, 35 miles north of Utica, and at Floyd, the New York state police reported. Highways in many areas were blocked by flood damage.

The rains, which ranged up to four-inch torrents, forced the evacuation of 50 families from homes at Springville, Pa., and others at Conneautville. Water ran 10 inches deep over the main street of Kerrtown, Pa.

First to be struck by the floods was the Miami river valley north of Dayton and other lowlands of central and northern Ohio. At least 80 families were forced from their homes.

Lake Boat Goes
Down; 11 Missing

WINDSOR, Ont., June 4.—Eleven crew members were reported drowned and three others were missing today after the heavily ore-laden steamer, Emperor, struck a rock and sank in fog-shrouded Lake Superior off lonely Isle Royale.

Twenty-one survivors were taken to Ft. Williams, Ont., a Lake Superior port a short distance north of the Minnesota boundary.

The 7,000 ton freighter, operated by the Canada Steamship Lines, Ltd., struck a rock at 4:10 a. m., about five hours after she sailed from Port Arthur, Ont., for Ashtabula, O.

Capt. Norman Reoch of Montreal, operating manager of the line, listed Capt. Eldon Walkinshaw of Collingwood, Ont., among the victims. He said the first mate, second engineer, three cooks and five other crew members also drowned.

At Windsor, officials of the line said the Emperor carried a crew of 35 but no passengers.

The scene of the sinking was off Passage island light, where a wide but rock-studded channel connects upper Lake Superior with Thunder bay.

Motorists Should Report
Faulty Meters To Police

If you find a parking meter downtown that doesn't work properly, police are anxious to know about it. Consequently they are asking public cooperation in keeping the meters in working order.

Police Chief Nerr Gaunt said today that all meters have been numbered and requests that when a driver finds one out of order, or one that doesn't register properly, he report it by number to the department.

The numbers are located on the meter posts, just below the meter mechanism.

LEAVES FOR
KANSAS CITY
IN TWO DAYS

President Has Ten Days
In Which To Act On
New Measure

(By Associated Press)

WASHINGTON, June 4.—President Truman will not act on the \$4,000,000,000 income tax cut bill before he leaves for Kansas City Friday morning, Secretary Charles G. Ross said today.

Ross told reporters he did not know whether Mr. Truman would act before he leaves for Canada next Monday after his return from the Midwest. In Kansas City, he will address the meeting of the 35th division with which he served in the first world war.

The tax bill, he added, has not yet reached the President's desk although congress completed work on it yesterday. Mr. Truman and congressional leaders of both parties conferred at the White House today but Ross said the tax legislation was not discussed.

The chief executive has 10 days, not counting Sundays, to approve or veto it, but the time element pressed in from another direction.

Effective July

The bill on which the senate completed congressional action yesterday is designed to take effect July 1. That means hundreds of thousands of revised withholding tax instructions and forms must go to employers in the next three weeks if the bill becomes law. Most withholdings would be cut 20 or 30 per cent the first of next month.

Senator Millikin (R-Colo.), who piloted the bill through the senate, said he looks for the President to act this week.

Secretary of the Treasury Snyder indicated a decision might be reached at a special cabinet meeting Thursday.

One Democratic official on Capitol Hill told reporters last night that unless Mr. Truman has a last-minute change of mind he will veto the bill. But speculation continued rife.

The senate approved the measure in its final form yesterday, 48 to 28. The house voted for it Monday, 220 to 99.

A two-thirds majority in both houses would be required to over-ride any veto. They simply don't have the votes to do so.

Provisions

The measure provides for cuts ranging from 10.5 to 30 per cent off present taxes over a full year, but only 5.25 to 15 per cent for this calendar year. In addition, it would grant persons over 65 years of age an additional \$500 personal exemption.

The schedule of cuts:

On net income, after exemptions and deductions, of \$1,000 or less, 15 per cent in 1947, 30 per cent in 1948 and subsequent years.

From \$1,000 to \$1,400—graduated cuts of 10 to 15 per cent this year, 20 to 30 per cent thereafter.

From \$1,400 to \$136,720—10 per cent off this year, 20 per cent thereafter.

From \$136,720 to \$302,400—7.5 per cent off this year, 15 per cent thereafter.

All taxable income above \$302,400—5.25 per cent off this year, 10.5 per cent thereafter.

SINATRA TO PAY
\$9,000 TO WRITER

BEVERLY HILLS, Calif., June 4. Columnist Lee Mortimer has dropped assault charge against Frank Sinatra—announcing that the crooner has agreed to pay him \$9,000—but the boys didn't make up.

They didn't speak or smile to one another during a session yesterday in justice court. Each just looked glum when he looked in the other's direction. Frankie, wearing a flying jacket, T-shirt and gray slacks, sat on the jury box rail with his hands in his pants pocket.

Mortimer was quoted by Sheriff Sergeant R. B. Fox as saying that Sinatra knocked him down and beat him while three other men held him outside Ciro's night club last April 8.

June Keeps Tradition:

LISBON, June 4.—June, the month of brides, got off to a good start with 16 licenses issued the first two days this month, records in the probate court reveal.

May marriages exceeded by four the 160 couples licensed in April. There were 71 civil actions filed in common pleas court last month, of which 58 were divorce petitions, Clerk of Courts John W. Coleman stated. This is a decrease from the 87 petitions filed during April.

OHIO FLOOD
WATERS FALL

Receding Rivers, Creeks
Leave One Dead, Farms
Damaged

(By Associated Press)

Ohioans looked hopefully skyward today for respite from torrential rains that left many homeless by overflowing rivers and streams.

As the waters began to recede—except for the Ohio river, rising one foot an hour near East Liverpool—the first death attributable to the flood conditions was reported at Urbana.

David William Brooks, ten-year-old boy, slipped and disappeared into Mad river while helping a younger brother, Albert, 8, wash their pet dog.

Subsiding waters in farmlands left deposits of mud and silt in places where.

Little hope was held for the crop and a complete reversal in weather was about all that could save the corn planting.

Many persons returned to their homes, but 40 families, refugees from the Miami shores community near Dayton, were cared for at the West Carrollton High school.

The Ohio river was expected to climb to 15 feet near dam 8 in the East Liverpool area. Warren streets and cellars were flooded by the Mahoning river's slow recession yesterday.

In Lucas county commercial planters cut their machines to try planting by hand. Only 15 percent of the county's normal tomato crop was in the soil, and little corn or sugar beets has been planted.

Two weeks of normal weather generally was conceded as necessary to give Ohio's farmers a fighting chance to plant their crops. Earl Jones, extension agronomist at Ohio State university, advised farmers to count on planting corn up to June 25 for grain and to July 1 for silage.

No One Hurt In Auto
Collision On Route 30

One minor accident and two arrests were on the state highway patrol agenda Tuesday.

Cars driven by Max Rische, 29, of Chicago, and Nellis Carnahan, 58, of Erie, Rochester, collided on Route 30, 5.30 p. m. No one was injured.

Mayor Hugh Dickson of Canfield fined two Chicago drivers, Wilfred Bardeau, 22, and John Winot, 22, \$50 and costs each on charges of reckless operation filed by the patrol.

Rent Control Settled

Whatever Congress decides about rent control, the issue already has been settled. Rent control is going to be abandoned. If it weren't for politics, Congress would abandon it outright. But because of politics, the representatives and senators would like to let go of the bear's tail quietly. Maybe some of the people can be fooled a little longer by doing it that way.

Rent control is going to be abandoned because realities carry more weight than politics. One of the realities is that rent control, continued too long, has been a bad break for renters because it has helped make a shortage of rental property. Another is that rent control has caused wholesale deterioration of rented property. Still another—and this one will be plain a little later on—is that rent ceilings when prices are rising must be accompanied by rent floors when prices are falling, or a large and powerful minority can claim gross injustice.

Renters will be finding their own natural level in the not-too-distant future, along with other things. Property owners who took it in the neck when they had the first chance since the 1920's to put on some fat will be among the first to clamor for protection. When it turns out that no one is interested in their plight then, it will be plain that it is now that the real motive for rent control more than two years after the end of the war was politics, not economics.

One For Senator Claghorn

A rumpus has been caused in Washington by Dr. Charles C. Tansill, A. B., A. M., Ph. D., telling a meeting of Confederate organizations that Lincoln "tricked" the South into starting the Civil War—beg pardon, the War between the States. The responsibility, he asserted, rests "squarely upon only one pair of shoulders—and those shoulders belonged to Abraham Lincoln."

Dr. Tansill, a history professor at Georgetown University, is entitled to his opinion, which may or may not be worth more than that of the average northerner who has been taught to revere Lincoln without knowing too much of the political sparring which preceded the attack on Fort Sumter. But can Dr. Tansill say the war would not have been fought had Lincoln never lived? Or can he say the Union would have survived had there been no Lincoln?

"War monger" is a term which has been loosely used in the last decade. Senator Claghorn is one of the few individuals likely to be exhilarated by Dr. Tansill's latest use of it.

'Boss' Kettering Retires

Charles F. Kettering, who has announced his retirement as head of General Motors research activities, is a quelling industrial pioneer whose ingenuity made possible many modern conveniences. To use a 20th Century hybrid word, he has know-how.

Until "Boss" Kettering invented the self-starter, the automobile was a device only for adventurers. To twist an auto crank was to gamble with fate, and many a loser got a fractured arm for his efforts. For a woman to have attempted to drive a car of her own would have been unthinkable. The self-starter changed all that, and many of Kettering's other improvements have helped make motoring a pleasure for all.

Nominally, Kettering will be retired, but an inquisitive intellect such as his always will be probing along new frontiers, seeking new problems to solve.

An Assignment For Byrnes

James F. Byrnes, former secretary of state, is the latest public figure to find an assignment on the policy-making level in Hollywood. Before him were Eric Johnston and Wendell Willkie, and, before them Will Hays, who once was postmaster general.

Motion pictures, a medium for the dissemination of entertainment and enlightenment, is one of the nation's largest industries. Hollywood sells its product to millions of Americans and foreign countries see us largely through Hollywood's eyes. Hollywood can use the judgment and knowledge of a senior statesman in shaping its policies.

It's No Longer Funny

Comments on the rainy weather have been good-natured but it's getting to the point now where the humor has gone from the situation. Pools of water stand in low places in unplanted fields and the ground is so soggy it will take days of warm, bright weather to dry it out.

America is so vast and its climate so varied that famine has never visited it. When there were crop failures in one section, food always was available from other districts. That will be the case this year, too, insofar as America is concerned, but this is another year when much of the rest of the world is relying on America's bounty. It's a year when rain every day of the planting season is more than an annoyance. It's downright tragic.

Wasted Subtlety

We have never observed that Hollywood's high executives or movie audiences had much of a taste for subtlety. We don't know who first developed the aversion. But it's evident that the average screen play is pretty clear and simple. Virtue is white and vice is black. Virtue triumphs, boy gets girl, and the audience goes home happy.

But the House Un-American Activities committee seems to feel that Communist screen writers are sneaking subtle propaganda into their scripts and taking subtle digs at American institutions.

If that is so we're afraid the comrades are wasting their time. Nobody gets the point of the subversive subtlety except the Un-American Activities committee boys. And they're incorruptible.

A Florida golfer made a five hole in three under par. Maybe he doesn't think a hole-in-one is possible.

INTIMATE or purely personal affairs seem to be involved on this day, judging by the baneful aspects of planets having to do with the social, affectional, domestic or cultural life, although financial and other tokens of success and achievement may also share in complications or sinister influence.

Duplicity, misrepresentation, and intrigue may prove sensational, bringing disrepute or danger through wrong decisions or confusion. Craft and subtlety as well as delusion and fraud are menacing.

Those whose birthday it is may encounter a year of perplexity, strange encounters and complications, in which business and finance are involved as well as purely personal, social or domestic attachments, in which duplicity, intrigue, and under-cover situations may undermine the fair name, integrity and financial stability.

False moves and tricky judgments lead to sinister doings, keenly and regrettably affecting private and business relations. Utmost discrimination and honesty may avert serious loss.

A child born on this day may have certain tricky, deluded or sinister ideas, which bring serious reactions on its private and business standing. It should have early training on the value of principle.

GUARDING YOUR HEALTH

Relieving Pain in the Aged

By HERMAN N. BUNDESEN, M.D. PAINFUL disorders are very common, among elderly people and while it is not always possible to get rid of the disease, the doctor has a great many ways of banishing pain and making his patient comfortable.

He has a number of drugs at his command, including those known as opiates or narcotics. Drs. Emanuel M. Papper and Emory A. Rovensine of New York city believe there are even better means of freeing patients from pain. They are of the opinion that opiates make the patient drowsy and depress the breathing, both of which are bad for the aged.

Different Methods Instead, they suggest a number of different methods for use against pains of various origins. For instance, if pain is due to spasm of the blood vessels, they believe a preparation known as demerol is useful in relieving the difficulty. But it should only be given under the doctor's constant guidance.

This preparation relaxes the muscle in the walls of the blood vessels and has a pain-relieving action. This preparation also may be used prior to the administration of an anesthetic when an operation becomes necessary.

Passage of pain sensations over the nerves may be blocked by the doctor in various ways. For example, nerves can be cut, or they may be injected with various drugs. When a patient's age makes an operation for cutting nerves unwise, blocking of the nerves with suitable drugs may relieve pain for several months or more.

For example, if the patient is suffering from angina pectoris, a condition in which there is severe pain around the heart, injection of certain nerve passageways in the upper part of the spine with alcohol may be effective in bringing relief.

Facial Neuralgia Likewise, injections may give relief for many months in cases of

LEGAL NOTICE

RESOLUTION NO. 460718-15

Declaring it necessary to improve the following streets—East Third Street from the east line of North Ellsworth Avenue to the west line of North Lincoln Avenue.

Be it resolved by the Council of the City of Salem, State of Ohio: Section 1. That it is necessary to improve East Third Street from the east line of North Ellsworth Avenue to the west line of North Lincoln Avenue in the following manner:

By paving or resurfacing with Ohio Specifications T-60 Asphalt.

Section 2. That the grade of said street as improved shall be the existing grade; and that the grade of the curbs shall conform to the elevation of the center of the street.

Section 3. That the plans, specifications, estimates and profiles of the proposed improvement heretofore prepared by the City Engineer and now on file in the office of the Director of Public Works, and the same are hereby approved.

Section 4. That fifty percent (50%) of the whole cost of said improvement, less the cost of the intersections shall be assessed by the foot front upon the following described lots and lands: To-wit: all lots and lands abutting upon the proposed improvement, which said lots and lands are hereby determined to be specially benefited by said improvement; and the cost of said improvement shall include the expenses of the preliminary and other surveys and of printing and publishing the notices, resolutions and ordinances required, and the serving of said notices, the cost of construction together with interest on notes and bonds issued in anticipation of the collection of deferred assessments, and all other necessary expenditures.

Section 5. That the assessments so to be levied shall be paid in ten (10) annual installments, with interest on deferred payments at the same rate as shall be borne by the bonds to be issued in anticipation of the collection thereof; provided that the owner of any property assessed may, at his option, pay such assessment in cash within thirty days after the passage of the assessing ordinance.

Section 6. That bonds of the City of Salem, Ohio shall be issued in anticipation of the collection of assessments by installments and in an amount equal thereto; and notes of said city shall be issued in anticipation of the issue of such bonds.

Section 7. That the remainder of the entire cost of said improvement, not specially assessed, including the cost of intersections, together with the cost of any real estate or interest therein, purchased or appropriated, and the costs and expenses of any appropriation proceeding, therefor, and the damages awarded any owner

Considered Compliment

Wiping your hands on your neighbors coat after a meal is considered a compliment among Mongolian tribes. Grease helps make the coat airtight.

"Funeral Cakes"

In the 18th century, funeral biscuits were baked and sold for distribution at funerals in Halifax, England. These specially prepared biscuits resembled sponge cake.

PILES — Get Relief Now

Millions of sufferers in the last 40 years have found a way to get quick relief from the itching and smarting of piles. They use a delightful cooling, soothing and astringent formula — Peterson's Ointment. No wonder one sufferer writes, "The itching and smarting were relieved, and I slept all night. Peterson's Ointment is marvelous." 35c a box, all druggists, 60c in tube with applicator. Money back if not delighted.

Columbiana Rotary Hears Radio Talk

COLUMBIANA, June 4—Robert M. Knuth, program manager of WFMJ, Youngstown, spoke at the meeting of the Rotary club Monday evening.

Stationed at Hollywood with the armed forces' radio service during the war, he managed the production of 80 shows a week for the military personnel. He explained government regulations of radio stations.

Manager William Knuth of Firestone Farms invited members out to see Royal Jupiter, world champion steer which is making a tour of the country, and will be here for a week.

The club is paying the transportation of two busloads of boys and girls and six councilors to Cleveland Monday to be guests of the Cleveland Indians at their baseball game with Boston. Councilors are Del Bailey, Paul Reeves, Jack Olmstead, Elmer Detwiler, Jr., and Earl Smith, the last named school safety patrol director. Mr. Olmstead will donate 100 box lunches for the trip.

Ladies' Night Planned

Columbiana Kiwanians will observe ladies night Monday evening, with a dinner and social get-together at Paradise Evangelical and Reformed church, near East Lewis-town.

Major Vistor Cabas of New Castle, Pa., brother of John Cabas, Columbiana High school coach, was the speaker at the meeting this week, relating some of his war experiences with the Army air force.

Education Board Meets

The board of education held its June meeting Monday evening. No report on the needs of the schools has been received from the O. S. U. survey, and action on salaries waits the outcome of the session of the legislature. Alterations for the installation of a cafeteria in the High school building are under way.

Surgeons Unable to Aid 'Blue Baby' From Akron

CHICAGO, June 4—Surgeons determined today they could offer no relief to Akron's "blue baby," three-year-old Dickie Armstrong.

The child was flown to Children's Memorial hospital yesterday from his home for observation after the Red Cross, the Akron Community Chest and employees of Capital Airlines cooperated to finance the trip, operation and hospital care.

However, examination of Dickie's circulatory system established that because of structural peculiarities, it was impossible to attach his pulmonary artery to the aorta, main outlet of the heart—the usual method of correcting the condition. It is caused by failure of blood to reach the lung in sufficient quantity to maintain an adequate oxygen supply to the body's tissues.

A hospital spokesman said the child would be returned to Akron.

COMMERCE DEPT.
BOYS WANT BIG
EXPENSE ACCOUNT

By HOWARD DOBSON
WASHINGTON, June 4—The Commerce department asked congress today for permission to pick up a dinner tab now and then when foreigners are in town.

It recommended a bill allowing the secretary of commerce to reimburse employees "for expenses of entertaining representatives of other countries."

The department is in international society now, explained Acting Secretary William C. Foster in a statement filed with the house clerk.

Three "representatives of other countries" are coming to Washington in increasing numbers looking for information, Foster added. They stop by the department.

"Aviation, meteorology, geodesy, and high-voltage X-rays are a few of the fields in which requests for information are made," he said.

Then with the latest pamphlets on geodesy (that's a study of the earth, son) tucked into their brief cases, they often invite some of the department's boys out for a platter of shad roe, or to split a club sandwich. Or maybe for a leisurely game of Kelly pool before dinner.

But in such cases, the government acts like a suspicious wife handing out carfare and lunch money every morning to the head of the house.

The entertainer has to have prior approval of all expenses, or he has to turn in a receipt showing how much he spent and for what.

This "makes it impossible to entertain with the requisite flexibility," Foster observed.

"It is not customary for hotels to furnish receipts for meals, so the obtaining of one constitutes an embarrassment for the person doing the entertaining."

Foster added: "American business has found it worthwhile to allow its important personnel to entertain. Foreign business and foreign governments also have."

"The sums of money involved are relatively very small, while the results which can be accomplished by their judicious use are very large."

Envelope Bombs Received
In Britain from Palestine

LONDON, June 4—Scotland Yard said today that prominent Britons had received letters from Italy filled with explosives and arranged to detonate when opened.

Maj. Gen. Sir Edward Spears, an admitted anti-Zionist, said he received one of the letters and that it contained "a mechanism like the inside of a watch between two sheets of paper" and a bag of powder "about the size of a banana."

A Scotland Yard spokesman said that "I can neither confirm nor deny" a London Evening Standard report that Field Marshal Lord Montgomery, chief of the imperial general staff, and Sir Stafford Cripps, president of the board of trade, also received the infernal machines. Scotland Yard agents visited the war office, however.

A spokesman for Prime Minister Attlee said no such letter was received at 10 Downing street.

Crime experts were studying the powder, the type script and the large sized, double envelopes in an effort to trace the senders.

MAYOR HAGUE OUT
AT JERSEY CITY

JERSEY CITY, N. J., June 4—Mayor Frank Hague, whose fabulous career as a political leader carried into the modern scene the excitement and fire of another era, announced with sudden abruptness today his retirement from office.

The 72-year-old Democratic leader who fought his way out of the poorest district of Jersey City to become one of America's most durable and powerful of Democratic figures told newsmen hastily summoned to his city hall chambers that he would step out as mayor on June 16—the 30th anniversary of his election to the post.

He will be succeeded by his nephew, City Commissioner Frank Hague Eggers.

Natural Gas Supply
Studied At Conference

WASHINGTON, June 4—How to make the too-little natural gas supply now being pumped from gas fields meet the demands of the mid-western and Appalachian areas is the problem which federal and state officials and gas industry representatives set out to solve today.

Recalling the acute shortages of last winter, the conferees, meeting behind closed doors of a federal power commission conference room, got off to an early start in an effort to meet next winter's problems before they occur. These three chief points were under consideration:

1. The broad aspects of the gas supply and demand in the Appalachian area and the area supplied by Panhandle Eastern Pipeline Co.
2. Proposals for equitable allocation of gas transported through the war-built Big and Little Inch pipelines.
3. Next winter's load and capacity on Panhandle's system.

COLUMN

BY HAL BOYLE

MUSKOGEE, Okla.—They pour concrete like martinis now in building dams.

The old days of shovel mixing are gone, and to operate a modern concrete mixer it would be a good idea first to learn how to play a pipe organ. That's how complicated the control panel is.

They are building a \$22,000,000 dam and powerhouse across the Grand (or Neosho) river 12 miles northeast of here near the site of Old Fort Gibson, an historic outpost in pioneer days. The dam will take four years to build. It will help control floods in the Arkansas river basin, eventually furnish 180,700-gw kilowatt hours of electrical power annually, and create a great reservoir lined with recreational parks and wildlife refuges.

Any housewife would get a kick out of inspecting the new gadget they've got to mix the 461,300 cubic yards of concrete needed to construct the dam, which will be 110 feet high and 2,850 feet long.

Like a modern cake batter mixer it is electrically operated. But it is much more complicated. It looks pretty much like a Rube Goldberg model of a cocktail shaker on a giant scale.

It's a 70-foot high contraption costing about \$225,000.

The materials used in making the concrete—sand, gravel and cobblestones of different sizes—are stored in eight bins down the road a bit which holds 400 tons. Beneath the bins runs a six-hundred foot tunnel. A conveyor belt goes from the tunnel to the top of the mixer.

By pressing a button an electric signal flashes to a man in the tunnel just what type of material is needed and it is dropped on to a moving rubber-covered conveyor belt. It travels to the top of the automatic mixer and is dumped into the proper vat.

By manipulating buttons on the control board the operator can funnel down different type concretes into the four rotating concrete mixers below, each of which holds two cubic yards.

"That's a four-ton highball in each mixer," said Oscar S. McCormick, Minneapolis contractor. Like any good highball it's properly cooled—125 pounds of shaved ice goes into the making of each cubic yard of concrete. The cement is fed into the mix from a tall silo standing beside the chief structure.

The mixer has one feature any housewife would appreciate. If there is more or less than the proper weight of any ingredient in the vats, warning lights flash on the control board.

The control panel also has a moving roll of paper like a player piano on which sixteen pens record the amount of each ingredient, the time,

and the temperature. Each batch is timed more accurately than a three-minute egg.

The machine is big and costly, but seven men can turn out eight cubic yards of concrete every two minutes with it under ideal conditions. Smaller machines fed by hand shovellers take more men and produce only one cubic yard every three minutes.

But so fast are engineering developments coming that its operators said it is already obsolete. I asked Bob McCormick, the contractor's son, what would be done with the mixer when the dam was finished.

"I think," he said, "we'll just turn it into a still."

But most Oklahomans—the state is legally dry—would object on the grounds that most of their local whiskey has enough concrete flavor already.

Anderson Says Farmers 'Betrayed' By Congress

DURHAM, N. H., June 4.—Secretary of Agriculture Anderson today accused the house of "betraying" farm and national interests in trimming funds for the government's soil conservation program.

He referred to action of the house last week in ordering funds for the 1947 program cut from \$300,000,000 to \$150,000,000 and in directing that the program be eliminated altogether next year.

Saying that soil erosion now costs the nation more than one billion dollars annually in soil losses, Anderson called the house action "false economy."

The secretary said that due to wartime drain on the soil, there is a greater than normal need for conservation measures.

John McQuiston Hurls Season's First No Hit Game At Park

Crescents Win Third Game Over Fratilas; Golden Eagle Defeats Deming Team 7-5

The Leontia Crescents won their third straight American league softball game Tuesday night behind the no-hit pitching of John McQuiston, as they vanquished the Fratilas nine 2-0 at Centennial park.

It was the first no-hit performance for either American or National league pitchers so far this season. Just a year ago, on June 11 to be exact, McQuiston hurled a no-hitter in whipping the Sip-N-Bite 5-0.

The Saxons registered their first win of the year with an 8-1 decision over the Nationals in the other American tilt. The league-leading Golden Eagle squeezed through a 7-5 win over Demings, while second-place White Cottage was forced to go seven frames to drop the V.F.W. 5-2.

McQuiston fanned four and walked three in chalking up his no-hitter. In addition, he punched out a single in the second inning to drive in both Crescent runs. The winners themselves only got two bingles off Jack King of Fratilas.

Vince Moore paced the Saxons at bat with a home run and a single. The winners got three runs in the first, two more in the third and three in the fifth off Nat Pitcher Bill Sheen. Bill Pauline twirled two-hit ball for the Saxons and was never threatened.

Seven runs in the first two innings gave the Golden Eagle enough to defeat Demings, although the losers came back strong in the late innings to register a threat to twirler Dale Ritchie.

The Deming team contributed six errors in those fatal first innings. Kenny Brudery permitted only five Golden Eagle hits, while his mates notched nine, but the errors were too much to overcome. The victory kept the Golden Eagle slate clean with four straight wins. A line single in the seventh by Earl "Wink" Miller, manager of the Cottage team, drove in the deciding tally in the only extra inning game of the evening.

The Cottage lad collected only four base hits, while the Vets picked up six Jim Kline pitched for the winners and Bill Bennett for the V. F. W. The latter hit twice to pace the losers at the plate.

Paul "Apple" Bloor smashed out a home run for the Cottage.

Salem Legion Opens League Play Today

Salem's Junior American Legion team, touted as the finest young baseball outfit out of Salem in years, is slated for a County American Legion league opening at Centennial park at 5:15 today against the Hanover Legion team.

With Jack Rockhill slated for the pitching chores today, Salem will feature the hardest hitting pair, Carl Hrovatic and Jerry Miller, who slapped out homers and triples, respectively, in Saturday's 11-3 victory over the same team.

Hrovatic pitched Saturday, getting 15 strikeouts. Eddie Bozich is the Salem captain and shortstop.

The local outfit will meet Lisbon there on Friday afternoon. Game time is 5:15 at Lisbon.

BOUDREAU BLASTS BUT TRIBE FAILS

Manager Hits Like Demon But Washington Gets Edge 6-5 Tuesday

CLEVELAND, June 4.—Their new stadium fence presented an obstacle to the Cleveland Indians' pennant chances today as the Tribesmen reeled under the impact of three straight losses.

Blasted by three over-the-fence smashes, the Indians suffered another "hard-luck" one-run loss last night as the Washington Senators edged Cleveland 6-5 in the opener of a three-game series.

Tribe Manager Lou Boudreau paced the Indians' offense by driving home four tallies and scoring in four trips to the plate.

Boudreau delivered a two-run single in the third to give the Tribe a 3-2 margin after Ken Keltner and George Metkovich rapped one-bases, but in the fifth Buddy Lewis and Stan Spence cleared the outfield barrier for three runs and a 5-3 lead.

Boudreau rapped another bingle in the seventh to knot the count 5-5 then in the ninth the Nats' Gerry Priddy blasted another homer over the fence to best southpaw reliever Pitcher Les Willis.

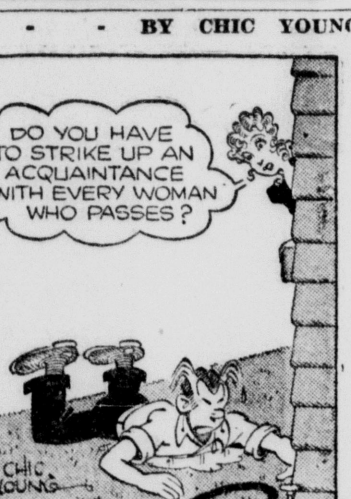

Fireballer Bob Feller, who has failed to finish his last four starts, will try for his sixth victory of the season tonight against Right-Hander Ray Scarborough under the stadium lights.

Honus Wagner Recalls Day Of His Start In Baseball

By FRITZ HOWELL
Ohio AP Sports Editor

COLUMBUS, June 4.—His name really is John Peter Wagner, but baseball fans for more than half a century have known him as "Hans," "Honus" or the "Flying Dutchman."

Anyone who has ever walked by a baseball park knows that the bow-legged veteran, now 73, is coach of the Pittsburgh Pirates, that he played 21 seasons for the Pirates with an over-all batting average of .328 and a fielding average of .945, that he led the National league eight times in hitting, that he was a terror on the basepaths, and that he's one of the brightest orbs in baseball's hall of fame.

But this little ditty, picked up in a fanning bee the other day with the guy fans call baseball's all-time shortstop, concerns only the first year of the great one's diamond career.

Perhaps, hidden away in Old Hans' rookie experiences will be a lesson for the kids of today who might give up too early in trying to carve out a baseball niche.

Here's a quick look at that opening year, through which Hans battled his way to the highest honor the game can bestow—The Hall of Fame.

Back in 1893, when he was 19, the Steubenville, O., club of the Interstate league offered Hans \$35 a month to go into professional baseball.

"All my friends told me to turn it down, and demand more money," the future star declared. "So I wrote back and told 'em I'd have to have \$40 a month."

"I got a letter back from the club telling me to sign for \$35 or stay home. So I packed up my other shirt and an extra pair of socks, and rode a freight train from my home town of Carnegie, Pa., to Steubenville."

When I got there they charged me \$30 for two uniforms, and \$2.50 for a pair of baseball shoes, so I had \$2.50 left of my month's pay."

Wagner hung around Steubenville only a couple of weeks, and then shifted to the Akron club.

"We played only three games in Akron," Wagner recalls. "Our manager was sore at the newspapermen and wouldn't let 'em in the park, and no one else came, either."

"So I shifted over to Mansfield, Ohio, where they had a crowd."

When I got to Mansfield, they charged me \$30 for two uniforms, and \$2.50 for a pair of baseball shoes, so I had \$2.50 left of my month's pay."

Sign With Steelers

PITTSBURGH, June 4.—By Garnaas, veteran blocking back and signal caller, and Elbie Nickel, University of Cincinnati product, have signed Pittsburgh Steeler contracts for the 1947 National football league season.

Garnaas, former University of Minnesota star picked up by Walter from the Chicago Cardinals, is in his second season for the Steelers.

A 190-pounder, the 23-year-old Nickel is a freshman in the league. Nickel, from Portsmouth, Ohio, passed up two major league offers to try pro football.

Eisenhower Stresses "Security By Strength"

WEST POINT, N. Y., June 4—General of the Army Dwight D. Eisenhower today told 311 cadets being graduated from the United States Military Academy that "the true soldier of America is a leader for world cooperation."

The chief of staff said the cadets' "special and pressing obligation" was national security, but added it could never be achieved "in the absolute sense, unless all other peoples feel equally safe."

"Relative security, only, is possible through strength of arms," Eisenhower said. "The true soldier of America, therefore, is a leader for world cooperation, knowing that to serve best the security of his country he must work for the cause of peace. Here is a lasting challenge to your breadth of understanding no less than to continuous professional development."

EAST GOSHEN

Richard Thompson, son of Mrs. Blanche Thompson, who graduated as one of the honor students at the Sebring High school, received a four-year scholarship to Kent State university.

He was one of 28 in the state to receive this award.

The Sunday school class of children was entertained at the home of Mr. and Mrs. Ross Granger Wednesday evening. Games were enjoyed and a lunch was served to 13. Mrs. Lynn Shreve is the teacher.

W. C. T. U. members met with Mrs. Mary Malmesbury Tuesday.

Sewing was the pastime. Mrs. Leota Cattell had charge of the program.

Recent Birth

Rev. and Mrs. Harold B. Winn of Hughesville, Pa., are the parents of a son born May 29. He has been named Harold B. Winn, Jr. Mrs. Winn was formerly Miss Wilda Santee of East Goshen.

Mr. and Mrs. Carl Shewell and daughter, Mr. and Mrs. C. A. Malmesbury and daughter and Mrs. Lucy Phillips were dinner guests of Mr. and Mrs. Harley Thomas of Damascus Sunday. The event honored Mrs. Shewell on her birthday.

Mr. and Mrs. Levi Pew of Rosemont will be dinner guests of Mr. and Mrs. Charles Wise Thursday.

Mr. and Mrs. Herman Haberland of Pittsburgh were supper guests of Mr. and Mrs. Harry Haberland Friday evening.

Mr. and Mrs. Donald Lee of Sebring called on Mr. and Mrs. Russell Malmesbury Sunday.

Mr. and Mrs. Merle Sherrett spent Memorial day with Rev. and Mrs. J. H. Palmer of New Philadelphia and Mr. and Mrs. C. E. Sherrett of Dover. James Romig of Gadenhutte visited Mr. and Mrs. Merle Sherrett Saturday.

Mr. and Mrs. Lynn Shreve accompanied her parents, Mr. and Mrs. N. A. Lewis of Salem, attended a dinner at the home of Mr. and Mrs. Arthur Emery.

Dr. and Mrs. Bredley Lee, who are ill, are reported improving.

Weekly Becomes Daily

WILLOUGHBY, June 4—After 50 years as a weekly publication, the Lake County News-Herald has become a daily newspaper, publishers reported today.

Dickie Bird

Barber Joseph Casa lathers F. W. Howard in his San Francisco shop as Dickie the bird watches the tonsorial operation from his owner's shoulder. Customers can count on an outburst of song from the pet canary as soon as the clippers start to hum.

"Cigaret State"

The four cigar plants in North Carolina produce more cigars than the combined remaining plants, located in nine other states.

With District Men In the Service

Mr. and Mrs. Ross Reno of North Georgetown have learned that their son, Charles, was awarded the Panama Citation of Honor May 20 by Gen. J. D. Richards.

His address is: Pvt. Charles M. Reno, R.A. 1533, 8079 Co. C. 33rd Inf., care postmaster, New Orleans, La.

Dies As Car Hits Pole

PAINESVILLE, June 4—Donald E. Chapman, 17, was killed and a companion, James Bodi, Jr., 16, injured seriously yesterday when their car crashed into a utility pole.

Byrnes To Aid Johnston In Hollywood Enterprise

HOLLYWOOD, June 4—James F. Byrnes, former secretary of state, has been selected to help guide the destinies of the vast film industry.

Eric Johnston, president of the Association of Motion Picture Producers, in making the announcement, said Byrnes, who has had a long and colorful public career, would be associated with him as his counsel.

Byrnes, now associated with a Washington, D. C., law firm, expects to spend most of his time, in his new post, in the nation's capital. Johnston did not disclose salary terms but indicated Byrnes had been retained on a fee basis.

If Stomach Gas or Sour Food Taste Robs You of Sleep

Here's How You May Help, Whether You Eat 500 Pounds or 2000 Pounds of Food In a Year

You can't feel cheerful, be happy and sleep well, if your stomach is always upset. As age advances the "old stomach" needs more help. The reason is this: Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains very special and potent activating ingredients.

Also, SSS Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red-blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with over-doses of soda and other alkalizers to counteract gas and bloating when what you so dearly need is SSS Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Sturdy Health.
